FREDDIE BANFIELD

3RD YEAR COMPUTER SCIENCE MAJOR
OKANAGAN COLLEGE - KELOWNA

April 24, 2020

To whom it may concern:

I have been asked to write a letter of reference for Fred Banfield. I do so with no hesitation. Mr. Banfield has been a student in two of my college classes, and both times he left a positive impression on me for two things.

First, Mr. Banfield seems to grasp course concepts very quickly. He is also able to take a concept and reason out its "real world" ramifications. This often leads to very good questions in our classroom discussions.

Second, Mr. Banfield has shown rather strong leadership skills when working in groups. He appears to have some natural leadership qualities as others seem to take his guidance very easily. Most impressive to me has been his ability to get so much effort from his teammates while maintaining a cheerful feeling within the team.

Recently, with the shutdown of the school's classes due to the virus outbreak, his group continued to function extremely well (I do regular evaluation of each member of my groups), and they made a special note to me that it was Mr. Banfield's efforts in organizing and encouraging them that was big part of the excellent grade they earned.

And, as you will also see for yourself, Mr. Banfield is a very friendly and likeable person. His enthusiasm can be quite invigorating.

Yours truly,

Mike Orwick,
Professor of Business at Okanagan School of Business
